MONEY, STOCKS AND GRAIN

Wall-Street Shares Were Firm Until a Drive Was Made Late in the Day.

Engagement of \$1,000,000 for Thursday's Steamer and Perhaps More for Saturday-Firmer Tone to Indianapolis Cereals.

THE BOND MARKET.

Railway Issues Weak on Sales that Reached Only \$694,000.

At New York, yesterday, money on call was easy at 2024 per cent., the last loan being made at 21/2; closing offered at 21/4. Prime mercantile paper, 6@8 per cent.

Sterling exchange was firm, with actual

business in bankers' bills at \$4.85@4.85% for sixty days and \$4.89@4.89% for demand. The New York stock market was extremely dull and featureless during the greater part of the day yesterday. At the opening prices ran off sbout 4 @1 per cent., but a recovery followed and some shares sold higher than Monday night. The market remained comparatively firm until about 2 o'clock, when simultaneously with the announcement that the Drexel-Morgan reorganization plan of the Rich-

mond Terminal would be given out after the close of the exchange, a drive was made at the securities of that company. This was the signal for an attack all along the line and on an increased busi-ness prices declined 4 to 3 per cent. with the industrials, Atchison and the gran-gers in the lead. The selling was stimu-lated by the engagement of \$1,000,000 gold for Thursday's steamer and by a report that a further considerable amount would be forwarded on Saturday. The market closed

Railway bonds were weak. The sales were \$604.000. Chicago & Western Indiana generals declined 2, to 114; Richmond Terminal trust fives 24, to 33; Richmond Terminal Trust sixes 7, to 66. Government bonds were firm and State bonds were dull. Closing quotations were:

LOCAL GRAIN AND PRODUCE. An Off Day in Trade Circles, with No Im portant Changes in Values.

On the wholesale streets yesterday trade was rather quiet, blustering weather probably having something to do with the unfavorable traffic of the day. In prices there were no changes of importance. In dry goods a much steadier tone prevails than in the early part of this month. All staple groceries are firm in tone. Poultry, eggs and butter are coming in freely, and prices, although unchanged, are weak. New Albany strawberries were on the market yesterday for the first time, and sold at \$3 a case of twenty-four quarts. Receipts of new potatoes are large, but prices are well held. A large per cent. of the receipts are small and hardly ripe. Young

chickens are quoted at 20c per pound.

There was more life to the bidding on 'Change yesterday, and bids were a little better than on Monday on wheat and the higher grades of corn. Both oats and corn are in good request at quotations. Track bids ruled as follows:

Novel Vegetable Delicacies.

New York Correspondence Agriculturiat. Our list of salad plants has increased by searching the fields and woods for new flavors, and many plants that were formerly considered wild, useless growths, are now sold in the markets. Among those which are now specially used for salads are woodsorrel, yellow rocket, tarragon, seurvy-grass, brook-lime, buckthorn plantain, burnet and many others. Then, as articles of decoration, we have the strange plants called snails and caterpillars. Their pods so resemble these anamals that one will not detect the difference at first. On first-class tables they are used to dress the salad dishes, although the real presence of such creatures would be an unwelcome

Among the vegetable delicacies which adorn the table of the epicure occasionally are plants raised by the Chinese market gardeners in this country. The Chinese vegetables differ from those produced in other countries, and so odd and curious are they in shape and flavor shat they are quite popular in the New York markets, These queer-looking vegetables somewhat resemble our peas, beans, cabbages, squashes and other plants, but they are different, and their names are unpronouncable. For fancy side dishes at banquets, and at great dinners, they are very popular, although an American, for his

BEARISH FEELING OBTAINED

Local Demand at Chicago Sluggish, Wheat, Corn and Oats All Declining.

English and Continental Crop Outlook for the Leading Cereal Shows a Steady Improvement and Buying Orders Are Scarce.

TRADING AT CHICAGO.

Provision Market Dull and Prices Slightly Higher on All Lines. CHICAGO, May 23.-An addition of over

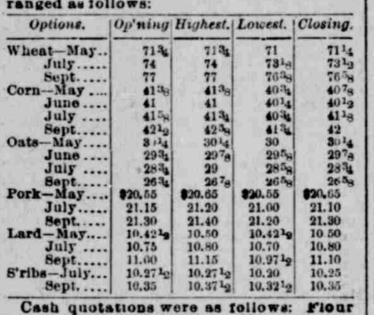

2,000,000 bushels to the amount of wheat on ocean passage was reported to-day. As a result of this and other decidedly bearish news, weakness was the leading feature in wheat and other grain markets. Rain continued in France and Germany. The English crop outlook was steadily improving. Sales were lower, with the week's shipments from India aggregating 700,000 bushels. There were free liquidations, and short selling was generous. Outside orders were scarce and the local demand sluggish. The buying was mainly by shorts to take profits. The Cudaby contingent bought rather freely on the decline, but it had little effect on values. The market kept weak until the last few minutes on lower stocks and reports of serious financial troubles in London. The Bank of England was reported to have raised its discount rate to 5 per cent. The opening was about the same as yesterday's closing, and with only slight fluctuations prices declined %c for July and %c for September, then ruled

lower for July and 'se for September. In corn the feeling at the start, it was imagined, would be bullish on the cold weather, but the strength only lasted for a moment, the market, after opening at yesteaday's closing prices, soon selling off.
The large receipts made holders more inclined to sell, a good deal of long property coming out. The fact that many shorts covered yesterday left the market without much support, although there was some heavy buying at the start for St. Louis shorts. Good rains were reported over the dry. The market gradually sold off a full cent, the action of wheat assisting the break, and after railying 40 ruled steady and closed with & @ sc loss.

steadier, and the closing was about & @ 40

The price changes for oats were confined to 40 range, and the close was at about the same figures as yesterday to 'se decline. The teature of the provision market was the absence of anything like business. Prices averaged slightly higher on a light run of hogs at the yards.

Vessel room was in light supply and firm at 14c, bid, for wheat, and 14c for corn to Buffalo. Agents asked 4c more. Charters to Port Huron were made for oats at 14c. Estimated receipts for to-morrow are: Wheat, 112 cars; corn, 465 cars; oats, 230 cars; hogs, 18,000. The leading futures ranged as tollows:
